DETAILED ACTION

This office action is in response to the terminal disclaimer that was filed June 7, 2005.

Terminal Disclaimer

The terminal disclaimer filed on June 7, 2005 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of the full statutory period of prior Patent 6,326,238 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or make obvious a method comprising forming leads, and clamping tabs located at a fourth level integral with a die pad located at a third level, and forming a wirebonding device overlying portions of at least two leads and portions of at least one clamping tab including all the limitations of the independent claim.

In contrast, while the use of a clamping device for wire-bonding is known in the art as shown in Otsuki et al. (U.S. 6,133,623), and the use of tabs integral with die paddles are known in the art as illustrated in Chiu (U.S. 5,358,905) and Inaba (U.S. 4,258,381), the tabs fail to show a wire-bonding device overlaying portions of the tab and leads.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
